Adaptable Frontend Developer with nearly 3 years of experience designing and implementing innovative frontend solutions across hospitality and community-focused platforms. Specializing in crafting user-friendly applications, I excel in enhancing the overall user experience through collaborative problem-solving.

EXPERIENCE

Software Developer October 2024 – October 2024

Energy Talent AI, Abuja, Nigeria

 • Implemented an infinite marquee of team images in the hero section, creating a dynamic, continuously scrolling effect to capture user attention and showcase talent diversity, contributing to a professional first impression.

 • Developed breakpoints and flexible grid layouts using Tailwind CSS, ensuring a consistent and engaging user experience across a wide range of devices.

Co-founder, Software Developer August 2024 – January 2025

NeTuArk, West Bengal, India

 • Contributed to the Chat Room feature by optimizing functionality and addressing bugs, significantly speeding up student conversations and improving real-time engagement.

• Worked on the Feeds platform, managing replies to posts, fixing issues, and optimizing performance. Enhanced user experience by accelerating how students connect with new people through posts.

Software Developer September 2024 – Present
Church Project- Lagos, Nigeria

• Utilizing standard web technologies, I developed responsive and functional web applications, fully integrated with APIs. This experience provided me with a foundational understanding of collaborating with a team to plan, construct, and deploy fully functional web applications.

 • Developed Collaborating with senior engineers, I completed tasks punctually, which served to refine my skills.

Software Developer April 2025 – June 2025

MERN stack blog platform, Lagos, Nigeria

 • Led the development of a news blog with role-based access, enabling users to get up-to-date information using external APIs and leave responses through like/dislike interactions.

• Designed and implemented protected routes, streamlined content access, and maintained a clean, intuitive user experience across devices.
